

the *Curriculum
Foundation*

Successful learners:
the fruits of a healthy
curriculum.

WORLD-CLASS CURRICULUM

OUR WORKSHOP MENU

SELECT WHAT YOU WANT WHEN IT SUITS YOU

Every learner should leave school with the confidence, desire and ability to make the world a better place. Work with us to explore a curriculum intent that fits your context and to build the processes of implementation that focus the whole community on doing the right thing for all groups of learners.

EXPLORE

CREATING A CLEAR RATIONALE

Explore our key principles for planning a whole curriculum that is fit for the challenges and opportunities of the 21st century, taking into consideration the school's own context and local, national and international standards and expectations.

BUILD

GETTING THE TEAM ON BOARD

We all know our staff are our greatest resource. Consider some practical ways of motivating and supporting subject leaders and teachers to ensure the school's intended curriculum is carefully planned and implemented effectively.

DEVELOPING LEARNERS' VALUES AND ATTITUDES

Work with us to develop strategies to ensure learners have regular exposure to the school's agreed values as well as opportunities to develop positive attitudes in lessons and through the wider curriculum.

COMPETENCIES FOR LIFELONG LEARNING

In this session we focus on developing the key competencies for life such as communication, cooperation, creativity and critical thinking.

EVALUATE

HOW WELL ARE WE DOING?

Is the curriculum having the intended impact on the progress of every learner? Develop tools and techniques for measuring and improving the impact of the curriculum on the progress of all learners in all key groups in your school.

Contact us to book a session.

Email: admin@curriculumfoundation.org

We tailor our sessions according to your needs and interests and look forward to discussing your requirements.
